Aventurier

An **effective** cleaning solution that's **smart** in design, **quiet** in operation, and **eco-friendly** in performance.

Effective

Faster Thorough Cleaning

- Two-way rotating brushes can scrub floor surface and quickly remove dirt, leaving a clean dry floor.
- Modular cleaning components for different flooring types help separate areas for cleaning and prevent contamination.
- Delivers cleaning efficiency 8-10 times greater than traditional mops.

Smart

An Easier and More Flexible Experience

- User-friendly design throughout makes cleaning easier.
- A digital platform where users can view device status, log, and data analysis report enables easier and smarter control.

Quiet

Whisper-Quiet Cleaning

- Innovative air channel design ensures performance below 60dB(A) and minimal environmental disturbance.

Eco-Friendly

Use less, Last longer

- Less water consumption thanks to precise control of water flow in different modes.
- Electrolyzed water with 99.99% of germs killed avoids the use of chemical detergents.
- Optimal system design guarantees lower power consumption and a longer battery life.

Say Goodbye to Wet Floors

Wet floors after mopping are now a thing of the past. With 26kg of brush pressure and 8000Pa suction power, Artist leaves floors clean and dry instantly — eliminating slip hazards.

Where is Artist 1 suitable for

Restaurants

Hotels

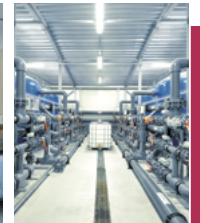

Residences

Manufacturing

Faster, More Thorough Cleaning

8 Times
Faster Than Mops

26kg

- Strong Downward Pressure
- No Repeated Cleaning Needed

20,000Pa

- High Suction Power
- Leaves Floor Dry Right After Cleaning

350rpm

- High Brush Speed
- Effortlessly Removes Stubborn Stains

4+1 Modes for Multiple Environments

ECO Mode

- For lightly soiled floors
- Save water and electricity and last longer

Turbo Mode

- For heavily soiled floors
- Effortlessly pick up dirt wherever it goes

Brush-Only Mode

- For periodic cleaning of the heavily soiled floor
- Brush and then vacuum to remove stubborn stains like grease with less effort and more efficiency

Auto Mode

- Smart parameter adjustment based on dirt level
- Make floor cleaning smarter, more energy-efficient and worry-free

Sterilization Mode

- For high-standard floor cleaning
- Comprehensive disinfection with electrolyzed water that kills 99.99% of germs

An Easier and More Flexible Experience

Flexible Edge Cleaning

- Leave no edges and corners behind

Low Space Cleaning with Ease

- More flexibility in operation
- To reach more inaccessible areas

2 Auxiliary Support Angles

- For users of different heights
- To clean large spaces with less effort

Easy Movement

- Bottom rollers allow easy transportation

Effortless Operation

- Just click and push

Whisper-Quiet Cleaning

Use less Last longer

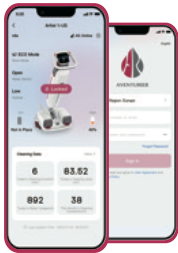

Work Magic with A Bottle of Water

500ml water for 70m²
4L water for 450m²
